This representation letter is provided in connection with your audit of the financial statements of the Downtown Development Authority (DDA), a component unit of the City of Marquette, Michigan, which comprises the respective financial position of the governmental activities and the aggregate remaining fund information as of September 30, 2021, and the respective changes in financial position and the disclosures (collectively, the “financial statements”), for the purpose of expressing opinions as to whether the financial statements are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.

We confirm, to the best of our knowledge and belief, as of March 18, 2022, the following representations made to you during your audit.

- 7) Adjustments or disclosures have been made for all events, including instances of noncompliance, subsequent to the date of the financial statements that would require adjustment to or disclosure in the financial statements.
- 8) We are in agreement with the closing journal entries you have proposed, and they have been posted to the accounts.

- 26) As part of your audit, you assisted with preparation of the financial statements and related disclosures. We acknowledge our responsibility as it relates to those nonaudit services, including that we assume all management responsibilities; oversee the services by designating an individual, preferably within senior management, who possesses suitable skill, knowledge, or experience; evaluate the adequacy and results of the services performed; and accept responsibility for the results of the services. We have reviewed, approved, and accepted responsibility for those financial statements and related disclosures.

- 27) In regard to the consulting services related to maintaining capital assets schedules and the adoption of any new GASB standards performed by you, we have—
 - a) Assumed all management responsibilities.
 - b) Designated an individual within senior management, who has suitable skill, knowledge, or experience to oversee the services.
 - c) Evaluated the adequacy and results of the services performed.

and unrestricted net position is available and have determined that net position is properly recognized under the policy.

- 41) We are following our established accounting policy regarding which resources (that is, restricted, committed, assigned, or unassigned) are considered to be spent first for expenditures for which more than one resource classification is available. That policy determines the fund balance classifications for financial reporting purposes.
- 42) With respect to the government-wide and individual fund financial statements (supplementary information):

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN
FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**

For the Fiscal Year Ended September 30, 2021

Net Change in Fund Balances - Total Governmental Funds		\$ 70,570
<i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.</p>		
Capital outlays	275,987	
Depreciation expense	<u>(248,826)</u>	27,161
<p>Proceeds from debt issues are an other financing resource in the funds, but a debt issue increases long-term liabilities in the statement of net position</p>		
		(1,040,000)
<p>Interest on long-term debt is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. This is the amount of accrued interest recognized in the Statement of Activities.</p>		
		871
<p>Repayment of principal on long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.</p>		
		885,000
<p>Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.</p>		
Compensated absences		<u>(283)</u>
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES		<u>\$ (56,681)</u>
